This is a proposed 2 year overview which will be regularly reviewed to meet the needs of the different co-horts in terms of themes. Core stories and rhymes will generally stay the same in order to build up C+L skills and enable the language to be embedded. There is some overlap of themes for children who spend more than 3 terms with us, such as the seasonal learning, a focus on keeping healthy, but these are skills which need to be revisited and built upon by the children in order to support their development as their experiences of F1 and what they learn in their first few weeks as N1 are very different from when they are N2, as much of their development and learning in their first term is around their PSED and behaviour for learning.
